

# CLEAN AIR BALTIMORE COALITION NEWSLETTER

## IT'S EARTH DAY MONTH!

There are multiple ways to participate in celebrating Earth Day. But why not celebrate Earth Day, everyday! Participating in zero waste is a great way to celebrate the Earth everyday. Here's some examples to help you on your zero waste journey:

Start composting; the easiest way to participate is by dropping your food scraps off at one of the weekend farmer's markets: Saturday Market at 32nd Street in Waverly and the Sunday Market at JFX, just reopened downtown.

Remember to BYO (bring your own) when you're out and about. Before you leave the house, come prepared with your own reusable shopping bag, reusable water bottle, and coffee mug. Mother Nature will thank you and some businesses will reward you with a discount!

## PARTICIPATE IN THE CAP

Participate in the Climate Action Plan Workshop.

If you haven't done so yet, there's still time to register for the Baltimore City Climate Action Plan In-Person Workshop on Earth Day, Saturday 4/22/23, 10am-2pm.

Show up and get your voice heard! Participants can elect to be compensated for their time.
